

AVIONICS PART 2 - PHASE 3 (RADAR) FORMULA SHEET

$$Distance = Speed \times Time$$

$$Slant\ Range\ (km) = \frac{TX/RX\ Time\ (\mu s)}{6.7}$$

$$BW = \frac{1}{PW}$$

$$c = f \times \lambda$$

$$Mean\ Power\ (MP) = PP \times PW \times PRF$$

$$Z_0 = \sqrt{(L \div C)} \Omega$$

$$PW = 2n\sqrt{(L \times C)}\ \text{Seconds}$$
